

Dear colleagues,

we would like to invite you to our

1st Munich Symposium on Fetal Cardiology

It will take place from July 3rd to July 5th 2015 at the German Heart Center Munich, Lazarettstr. 36, 80636 Munich and will include a hands-on course.

The symposium will be devoted to the complex field of fetal cardiac disease. Lectures will be presented according to the first Scientific Statement of the American Heart Association.

Topics are: different techniques of evaluating fetal cardiac morphology and function, various specific fetal cardiac anomalies, peri- and postnatal management, long-term outcomes, and prenatal counselling.

By participation in the complete program a certification „Abschlußkurs Fetale Echokardiographie“ can be achieved according to DEGUM criteria.

Top experts from Europe and the U.S. will discuss the topics. We are looking forward to meet you in Munich.
